

ABACUS BASICS

WORKSHEET - 2

Name: _____

Time: _____ Seconds

Instructions:

- These worksheets are designed to practice lesson learned during the classroom/online sessions.
- Note the time taken to solve each worksheet with and without using Abacus techniques. Aim is to understand the difference in speed of calculation.
- Follow columns and write answer at the end. When there is no sign before number in table then it is addition (+).

Please let me know by your comments on my YouTube video, if you observed the difference in speed of calculation.
